

Just for 5th Graders

Meets in Room 413

9:45-10:30am

Fifth Graders are at that “in-between” age—want to be older, but still have fun being kids!

Re:form

Works like this:

First, the DVD clip grabs youth’s attention with quick-witted animations that introduce the session questions.

Then, the Anti-Workbook keeps them engaged with tons of activities that relate to those questions.

To provide variety and interest to learning, the kids will do special projects such as make communion bread, lead a skit or teach a session of Sunday School for younger children, or go on a field trip.
